Re: Transmittal of Information for Post Mining Land Use Change, UtahAmerican Energy, Inc. (UEI), Horse Canyon Mine, C/007/0013, Task ID #1630, #1756 and #1785, Outgoing File

Dear Mr. Marshall:

The Division has received correct information for Appendices 1-1, 1-7, 1-2 and 1-9 for the post-mining land use change amendment. The above-referenced amendment was approved on January 6, 2004. The Division is still awaiting the signed Exhibit E of Appendix X-4, the Memorandum of Agreement between UtahAmerican Energy, Inc. (UEI) and the College of Eastern Utah CEU).

The post-mining land use change is for the 16.18 acres of the mine pad area that have not yet been reclaimed and that have not received Phase II bond release. The proposed post mining land use change applies to the remaining disturbed areas that have not been reclaimed as follows:

#2 Sediment Pond	1.44 Acres
Building and Pad Area	10.80 Acres
Fan and Manway Portal Pads	2.83 Acres
Powder and Cap Magazine Area	0.57 Acres
<u>Water Tank Area</u>	<u>0.54 Acres</u>
Total Area	16.18 Acres

These facilities along with additional acreage will be donated by UEI to the College of Eastern Utah for the purposes of a science field camp. The facilities will not be regulated under Surface Mining Control and Reclamation Act of 1977 (SMCRA) after bond release. Therefore, a signed copy of Exhibit E Memorandum of Agreement will be a requirement of the final bond release application for the 16.18 acres.
